

Traces: horizontal vector amplitude √(N² + E²) of the 5-20 Hz causal band-passed north and east components, each scaled to its own maximum between 0.5 s before the P pick and 2 s after the model S time. Ticks above each trace: hand S pick (black), PhaseNet+ S pick (blue), model S time (vermilion). * Aligned on the PhaseNet+ P pick (no hand P pick).
Not shown (no P pick at all): CGWB, CHDA, CHRB, CLSA, EURB, HCNA, IMSB, JNYA, MALA.
